All bookings are subject to acceptance by the Davenport office. Rates are subject to change without notice.

●

**506 Putnam Bldg.
Davenport, Iowa**

GENERAL INFORMATION

Rentals are payable in advance or shipments will be made C. O. D. Responsible institutions and organizations such as schools, Y. M. C. A.'s and C. C. C. Camps may arrange for open account privileges, accounts to be paid in full the first of each month. However, it is essential that a specific agreement covering such payment be made before such privileges will be made effective.

Payments for film service are to be made direct to Eastin 16mm. Pictures, Davenport, Iowa. No salesmen or agents are authorized to make any collections whatsoever for the Company, and the Company assumes no responsibility whatever for payments made contrary to these instructions. All bookings are subject to acceptance by the Davenport office. Rates are subject to change without notice.

Rentals are payable for every day films are held over the period for which booked. If a program is booked for use Wednesday, it must be returned by the first train Thursday. If it is not returned until Friday, an extra day's rental is due and must be paid before additional service will be supplied. Should a program be booked for one week's use beginning on a Monday, it must be returned by the first train the following Monday, etc. etc. Bookings are not subject to cancellation after shipment has been made. In such instances, user should accept shipment and immediately return it to the library prepaid. He will then be privileged to use this same program later, within a reasonable time, for a similar length of time at one-half the regular rate, providing original booking was for no longer than one week's use. Eastin 16mm. Pictures assumes no responsibility for delays in transportation or last minute substitutions because of delayed returns. Every effort is made to maintain the best dependable service possible, but the cooperation of every user is essential.

Read Before You Show Sound Films

Efficient projection of sound pictures depends upon the careful handling of sound film. An excessive amount of dust and oil on the film may cause a certain amount of "fry" in the sound. Scratches of certain types on the sound track may distort the sound. Scratches on the picture portion of the sound track may distort the sound. Scratches on the film detract from its effectiveness.

Keep your projector very clean. Before each day's showing, and between showings when relatively new prints are used, clean all projector and sound parts with which the film comes in direct contact. Don't assume the film channels are clean—check them every day. Follow exactly the instruction manual supplied with your projector. If film is loose on the reel, do not tighten by pulling the end. Instead, TAKE TIME TO REWIND PROPERLY. If film breaks, stop the machine and rethread completely. Fasten the broken ends together at the take-up reel with a small paper clip. When starting the machine again, watch the take-up reel for a turn or two so as to be sure the film is winding properly. When threading your machine, be sure ample loops have been made. However, DO NOT HAVE LOOPS SO LARGE THAT THE FILM SLAPS ANY PART OF THE MACHINE OR CASE.

DO NOT attempt to splice sound film unless you are to immediately show it again. In case of damage, return all broken pieces to the library so that the film can be repaired with as little loss as possible. No charge is made for ordinary wear and tear or simple breaks in the film, but FILM DAMAGE WHICH REQUIRES THE REPLACEMENT OF FOOTAGE WILL BE CHARGED TO THE USER CAUSING THE DAMAGE.

Read your instruction manual carefully and follow instruction in every detail. The greater part of all trouble is due to the failure of operators to follow instructions. Do not attempt to thread sound films into a silent projector as irreparable damage will result.

All sound programs, except single 400 ft. reels, are supplied on 1600 ft. reels without additional charge. Transportation on sound programs, both for delivery and return, must be paid by the user.

Rental rates for sound-on-film programs are as follows:

For one day's use: Programs of one to three reels, \$1.50 a reel. Programs of four reels and over, \$1.25 a reel. Complete programs consisting of a feature with short subjects to total nine reels, \$10.00. Add 50% for one additional consecutive day. (Week rates apply to runs of three to seven days).

For one week's use: Programs of one to three reels, \$3.00 a reel. Programs of four reels and over, \$2.50 a reel. Complete programs consisting of a feature with short subjects to total nine reels, \$20.00. Add 75% for each additional consecutive week. (For bookings of four weeks or over, write for special quotations.)

- 5131—BLACK GOLD *with Frankie Darro, Roy Mason, Berton Churchill and Gloria Shea* 6

General Information About Silent Service

Rental charges listed herein
are for one day's use.
Rental for two consecutive
day's is 50% above the one

day charge, and one week's use (3 to 7 consecutive days)
just double the listed rate for one day. The minimum
charge per program is \$1.50.

Silent rental charges include delivery transportation ex-
cept in case of programs shipped to Maine, Florida,
Washington, Idaho, Nevada, California or Arizona. Users
in these states must pay transportation in both directions.
Return transportation must always be paid by user.

Silent films may be screened silently on any 16mm.
sound projector.

Silent films are regularly supplied on 400 ft. reels and
should not be rewound after last showing. Users are
forbidden to assemble silent subjects onto longer reels
unless such subjects are spliced at the end of part end-
ings and start of part numbers. These part numbers
and endings must not be cut from the reels.

If users of silent subjects wish these films assembled by
us onto 1600 ft. capacity projector reels and shipped to
them in this form, a charge of 75c is made for each 1600
ft. reel required. This charge is necessary to cover the
time required for assembling and separating, and to
compensate us for additional cost of transportation due
to added weight.

Window cards, 14x22, 5c each. Prices subject to change without notice.

IMPORTANT NOTICE

16mm. Sound Films are licensed for non-theatrical use only and may not be exhibited in theatres or in commercial competition with theatres.

RENT A

16mm. SOUND PROJECTOR

Here is an opportunity for any person to start circuit showings of talking pictures without investing a great amount of capital. We supply a 24B Victor Animatophone projector with 750 watt illumination, 15 watt sound output, High Fidelity Auditorium Speaker with 100 ft. cable and all lamps, cells and tubes with normal replacements for only \$7.50 a week providing our film service is used exclusively on a weekly basis. Projectors must be used for period of at least four consecutive week's and rental paid in advance. Film shipments are made c.o.d. each week and after the first four weeks, each week's projector rental is added to this film c.o.d. thus making your terms a weekly payment arrangement.

Recess Programs (Sound)

Many schools and institutions find a program of 35 to 40 minutes ideally suited to their requirements for assembly use.

From the hundreds of sound and talking short subjects we have available an almost limitless number of combinations may be made up for these programs. Make your own selection of every subject—we'll assemble them just as you specify on a 1600 ft. reel.

Such a four reel program of your own selection will cost \$5.00 when spot booked, or if you agree to use a series of fifteen such programs during the school year, your cost will be but \$4.00 per program. These prices are for one day's use.

If you wish a copy of the form covering the series of fifteen four reel programs, just write us and it will be sent you immediately.

(Note: While all sound short subjects listed herein are, as of October 1, 1937, available on this special price basis in a group of fifteen programs, we reserve the right to exclude any of these current subjects, as well as any future releases from this offer at any time without notice, such exclusions, however, not to affect any specific subject already booked and reserved for customers under this arrangement.)

Ways to Save Money (Silent Films)

Complete Silent Programs of Feature and One or More Short Subjects

Regular users requiring a complete silent program for one day's use each week or every second week can make a virtual saving of 7% from our already low prices. By booking a series of thirteen such programs, one for use one day each week for thirteen consecutive weeks, or one day every second week for twenty-six consecutive weeks, this saving is possible. The entire series must be booked at one time and played exactly as booked . . . no future changes are permitted, either in dates or subjects.

In the event the first twelve programs are used as scheduled, we will supply the thirteenth, the final program of the series, without cost other than return transportation. This final program is to be approximately the average value of the first twelve.

In booking a series such as this the user has everything to gain and nothing to lose. If for any reason it is necessary to cancel or change after the series has started, you may do so without cost or obligation—all you lose is the free "thirteenth" program which is your reward for completing the series as booked.

Two Reel Silent Programs

Many schools, institutions and camps make regular use of free industrial movies that are provided by various manufacturers and associations. As these films are almost invariably of an educational or instructional nature, programs made up of these exclusively often fail to click as well as might be desired. The answer to this problem is the inclusion of a good comedy film to properly balance the program. While our normal minimum service charge is \$1.50 a program, we make the special rate of \$1.00 plus postage on a series of four or more two reel silent programs of your own selection, to be played one a certain day each week for four or more consecutive weeks. These programs must all be booked in groups of not less than four at a time in order to get this special rate.
